

**1999 New Beetle GLS, Green, 208,000 miles VIN: 3VWCA21C0XM444 255**

- 2.0 L Engine (AEG)
- 5-Speed Manual
- Cloth Seats (tan)
- AM/FM/tape player
- Alloy Wheels
- Fog Lights
- Cruise control
- Antilock brakes
- Master key (flip key w/remote) - no spare keys
- Owner's manual

One owner car! This car came through the local auction. It was fairly sound and I was impressed with the number of miles, so I had to buy it. The parts replaced included a new headliner, air conditioner compressor, starter, and door lock mechanism. Routine service was performed which included a new cabin air filter and checking of plugs, air filter, etc. All operational items were corrected and there are no known mechanical defects in the car. Also the car has not been in an accident and the paint is in good shape. The cloth interior has some stains and dirt. All carpets mats are in car. This car has as much get up and go as any 2.0 L engine VW that I have ever driven. I have taken the car on several trips and have had absolutely no problems. The brake pads and rotors are almost new, the timing belt looks new, and the tires are almost new. There is a lot of life left in this car and it can be driven for the next 40,000 miles with only oil changes needed.

**1997 Passat GLX VR6, Automatic, Black VIN: WVVWEE83A0VB009660**

143,000 miles, Automatic Transmission

- 2.8L VR6 Engine (AAA) - six cylinder
- Moonroof
- Alloy Wheels
- Gray Leather Interior
- AM/FM w/tape player and CD changer in trunk
- Anti Lock Brakes
- Fog Lights
- 2 keys

Car was purchased at local auction. This was the top-of-the-line VW in that year. Car was serviced and many items were corrected to restore the car to original condition. Front brakes and rotors were new at 133K miles. New filters, spark plugs, spark plug wires, etc. were installed in getting car ready for sale. New air conditioner compressor and related components were installed. Known problems that are not being repaired include the cruise control (not working), ABS light intermittent (not seen for a long time now), RR door will not open from outside, and LR window will not lower. These could be repaired at a later time, but cannot be a part of this sale. RR door shows minor paint damage. Car runs great and uses regular gas.

**2003 New Beetle GL, Silver, 84,000 miles VIN: 3VWBK21C23M400664**

- 2.0 L Engine (AVH)
- 5-Speed Manual
- Cloth Seats (grey)
- AM/FM/tape player
- After-market CD player (8-disc Pioneer) changer in trunk (no guarantee)
- Cruise control
- Antilock brakes
- Master key (remote) - only one key
- After-market dark tinted windows

This car was a trade-in for a diesel. It is fairly low miles and is mechanically sound. The 80K maintenance was performed. This included new spark plugs and a check of all the fluids. A new thermostat, temperature sensor, and oxygen sensor were installed to clear up the check engine light. The VW dealer installed a new catalytic converter under a special warranty. The driver's side door latch was replaced to restore proper function of the automatic locks. The car was running fine before any work was done and is still working great. One defect that was not corrected was the headliner. It has pulled away from the support shell. For an extra \$300 (cost of new headliner), we will replace this with a new one, if desired. Also, the driver's seat back is worn on the edge. If a new CD player is desired, we can furnish and install a factory-refurbished unit for an extra \$100.

**2006 Passat 2.0L Gas Turbo, 6-Sp Automatic, White VIN:WVWAK73CX6P132406 70,550 miles**

- 2.0L Turbo Engine (~31 mpg, highway)
- AM/FM radio w/in-dash 6 CD changer, MP3, Satellite Radio
- Cruise Control
- Alloy wheels
- Air bags (dash, side, and side curtain)
- Power locks
- Antilock brakes with Anti-Slip Regulation (ASR)
- Gray Leatherette seats
- Tinted windows
- Power moonroof
- Owner's manual in glove box.
- Two master keys with remote
- Split folding rear seat

Notes on car: Fresh off a four-year lease in Memphis, TN area. Carfax shows no problems. Car showed evidence of routine maintenance performed by VW dealer. Last service (oil change) was in March, 2010 at ~67,000 miles. To get this car ready to sell, new rear brake pads were installed and a thorough inspection was made of all areas. Front brakes had already been replaced. All rotors looked perfect. Car runs perfect.

## **2002 Jetta GLS 1.8L Turbo, 5-Sp Automatic, Green VIN:3VWSE69MX2M109615**

82,000 miles

- 1.8L Turbo Engine (~29 mpg, highway)
- AM/FM radio w/in-dash CD, Monsoon Sound System (Premium)
- Cruise Control
- Alloy wheels
- Air bags (dash, side, and side curtain)
- Power locks
- Antilock brakes with Electronic Stability Program (ESP) system
- Velour cloth seats
- Dark Tinted windows
- Power moonroof
- Owner's manual in glove box.
- Two master keys (folding with remote) and one valet key
- Split folding rear seat

Notes on car: One owner car in tiptop shape. Timing belt service including new water pump, thermostat, and tensioner was performed at 75,000 miles. This car was bought new by daughter of owner of Vee Dub Motors and was driven exclusively in San Antonio, Texas. Routine service was performed on schedule. Front and rear brake pads and rotors were recently replaced. New front shocks have been installed. Owner traded up to a newer Jetta. Two items not working: heater for right side mirror and rear window defogger. We are providing our standard 30 day/90 day warranty on this car. See our warranty sheet for specific details.

## **1998 New Beetle, Red, 136,000 miles VIN: 3VWBB61C5WM032394**

- 2.0 L Engine (AEG)
- Automatic
- Cloth Seats (Tan)
- AM/FM/CD player
- Alloy Wheels
- Cruise control
- Antilock brakes
- Master key - no spare keys
- Owner's manual

I don't normally "rebuild" cars, but I had the opportunity to buy this car after a minor front-end collision that caused the front airbags to deploy. The only damage to the front was the front bumper cover and the driver side headlight assembly and fender. The control arm and tie-rod on the driver side wheel was also damaged. All these parts were replaced with parts from my salvage vehicle supply, so I was able to keep the cost down. A few more items need to be finished before the car is ready for sale. I plan to do the timing belt job, oil change, and tune-up. An alignment will also be done before the car is sold. Two new tires were installed on the front. The seats have stains, but otherwise, it is a fairly clean interior. There is an aftermarket radio in the dash, which updates the sound system to in-dash CD.

## **2008 New Beetle Pkg 1, 2.5L Gas, 6-Sp Automatic, Salsa Red**

**VIN:3VWRW31C38M517248 36,000 miles**

- 2.5L Engine (~30 mpg, highway)
- AM/FM radio w/in-dash CD player, MP3, Satellite Radio
- Cruise Control
- Alloy wheels
- Air bags (dash, side)
- Power locks
- Antilock brakes with Anti-Slip Regulation (ESR)
- Tan Leatherette seats
- Tinted windows
- Owner's manual in glove box.
- Two master keys with remote
- Floor mats, black rubber (VW mats)

Notes on car: Fresh off a three-year lease in Southern Georgia. Carfax shows no problems. Brakes and rotors look new. Rear tires have 75% tread left. Front tires are new. All four tires are matching brand: Bridgestone Turanza 400EL with low rolling resistance and long life. Alloy wheels are in near mint condition. Car is very clean inside and out. Engine and transmission are smooth with no trouble codes stored. Car had decals applied (Lady bug dots) and all were removed with no damage to finish. There is one minor dent on left quarter panel and a small scratch on the roof, but in general the paint finish is near perfect. Car was leased by a Golf Consulting Business. Full factory warranty remains until March, 2012 or 50,000 miles. Drivetrain warranty remains until March 2013 or 60,000 miles. Car will need service at 40,000 miles to include new spark plugs and oil change. This is highly recommended to maintain the engine warranty. Car was examined by VW dealer in February, 2010, and gas line recall was performed and a warranty repair was made for a noisy window operation on the driver's side. All systems are fully operational.

## **2001 Jetta GLS 2.0L, Automatic, Black VIN:3VWSS29M71M038714, 170,000 miles**

- 2.0L AEG Engine
- AM/FM radio w/tape player (new)
- 6-disc CD changer in trunk
- Cruise Control
- Alloy wheels
- Air bags (dash, side)
- Power locks
- Antilock brakes
- Gray cloth seats
- Tinted windows
- Power moonroof
- Owner's manual in glove box.
- One master keys (folding with remote)
- Split folding rear seat
- New floor mats

Notes on car: Good starter car. Has a few dings and interior is not perfect, but very usable. Mechanically, this car is in good shape. Complete service performed on engine and transmission: new spark plugs, oil change, oil filter, transmission oil change and filter, new engine air filter and new cabin air filter. New windshield installed. A CV boot was replaced and new tie rod ends were installed. Four wheel alignment performed. Interior defects include a broken hinge on glove box lid (still functional) and a few small holes in seat cover material. Most everything is functional including working cup holders in dash, new radio, all window switches and door locks. A new door lock mechanism was installed on driver's door. There are a few items that I did not fix. The passenger side door latch is not providing a signal to the system to tell it that the door is open or closed. This could cause you to lock your key inside the car, but with precautions, you can live with this defect. (I'm trying to keep the cost down, but it can be replaced for an extra \$200.)

## **2008 Jetta 2.5L 6-Sp Automatic, White VIN:3VWJZ71K18M060166**

80,200 miles

- 2.5L 5-Cylinder Engine (~31 mpg, highway)
- AM/FM radio w/in-dash single CD, MP3
- Cruise Control
- Steel wheels
- Air bags (dash, side, and side curtain)
- Power locks
- Antilock brakes with Electronic Stability Program (ESP) system
- Cloth seats, gray
- Tinted windows
- Owner's manual in glove box.
- One master key (folding with remote) and one valet key
- Split folding rear seat

Notes on car: We picked this car up un-expectantly at the local Paducah auction. While the miles are high for an '08, there is a lot of service remaining in this car. We have gone over the car, replaced the engine air filter and cabin air filter. We verified that the spark plugs had already been changed. A wheels-off inspection showed good brakes and rotors (almost new) and all underbody mechanicals were in good condition. The car has a Missouri title with 41,474 miles at time of purchase in 8/13/09.

## **2006 Jetta 1.9L Diesel TDI, 6-Sp DSG Automatic, Gray VIN:3VWDT71K86M773500**

100,500 miles

- 1.9L Turbo Engine (~45 mpg, highway; EPA says 42 mpg, but it will do better)
- AM/FM radio w/in-dash 6 CD changer, MP3, Satellite Radio
- Cruise Control
- Climatronic air conditioner controls (dual settings)
- Alloy wheels
- Air bags (dash, side, and side curtain)
- Power locks
- Antilock brakes with Anti-Slip Regulation (ASR)
- Gray Leather seats, heated, motor adjustment with three preset buttons
- Tinted windows
- Power moonroof
- Owner's manual in glove box.
- Two master keys with remote
- Split folding rear seat

Notes on car: Apparently a voluntary repo. Keys and manuals were present. Owner's manual recorded routine maintenance and car appears to have been well cared for. Since the 100,000 mile timing belt service would be due very soon, we performed this service to include a new timing belt, water pump, tensioner, and idler. The DSG transmission was also serviced with a filter and oil change. The engine oil and filter were also changed. The car received our usual wheels-off inspection and no other problems were noted. All brake pads and rotors had recently been changed, the tires are near new, everything is in working order. This is a top-of-the-line Jetta with real leather seats and automatic air-conditioning controls. The only defects on this car are a number of small dings with no paint damage. One other defect is the headliner is just starting to come loose at the rear.

## **2002 New Beetle GLS 1.9L Diesel TDI, 5-Sp Manual, Yellow**

**VIN:3VWCP21C12M415757**

119,000 miles

- 1.9L Turbo Diesel Engine (~45 mpg, highway)
- AM/FM radio w/in-dash CD, Monsoon Sound System (Premium)
- Cruise Control
- Alloy wheels
- Air bags (dash, side, and side curtain)
- Power locks
- Antilock brakes with Electronic Stability Program (ESP) system
- Gray cloth seats
- Tinted windows
- Owner's manual in glove box.
- Two master keys (folding with remote) and one valet key

Notes on car: One owner car. Timing belt service appears to have been performed at or near 80,000 miles. This car is from the Edwardsville, IL area. Owner's manual had some of the routine maintenance recorded. Engine appears to have been well cared for. Car does have some defects that are not being repaired. The driver's door was welded in the hinge area. Both door latch mechanisms have micro-switches that are broken. This is a common problem that I normally repair, but the cost for new parts is high. If you want both latches replaced, it will add \$200 per latch. A third defect is the front windshield is scratched in an arc where faulty wipers were used in the past. It does not obstruct vision.

## **2007 Jetta 2.5L 6-Sp Automatic, Pkg 1, White VIN:3VWRF71K77M049974**

46,000 miles

- 2.5L 5-Cylinder Engine (~31 mpg, highway)
- AM/FM radio w/in-dash CD changer, MP3, Satellite Radio Receiver
- Cruise Control
- Alloy wheels
- Air bags (dash, side, and side curtain)
- Power locks
- Antilock brakes with Electronic Stability Program (ESP) system
- Leatherette seats, Anthracite
- Tinted windows
- Owner's manual in glove box.
- One master key (folding with remote) and one valet key
- Split folding rear seat

Notes on car: Off commercial lease in state of Florida. Low miles, clean inside and out. We performed the 40,000 mile service which included filters, spark plugs, and a thorough inspection. A new headliner was installed as the old one was pulling away. Tires are in good shape. Car runs great. Air conditioner keeps up in the hottest of our hot summer.

**2002 New Beetle GLS, Techno Blue, 139,000 miles** VIN: 3VWCK21C42M407408

- 2.0 L Engine (AVH)
- 4-Speed Automatic
- Cloth Seats (black)
- AM/FM/tape player
- Cruise control
- Antilock brakes
- Master key (remote) - only one key
- Standard tinted windows
- Moonroof
- Fog lights
- Alloy wheels

The Carfax on this car shows three previous owners, but in each case, the car was sold by a VW dealer as a Certified, Preowned Volkswagen. This means new parts were installed regardless of need. We have the repair order for the last sale at 71,405 miles, showing that the timing belt and water pump had been replaced. This is normally done at 100,000 miles. Of course, we inspected the car completely and performed needed maintenance which included new spark plugs and filters. Two new front tires were installed. The car was registered in North Carolina and was a repo being sold by VW Credit at the Atlanta Auction. It runs great and looks super despite the normal dings for a car of this year. New floor mats and a new battery were also installed. Everything seems to be working on the car with one exception. The right (passenger) door lock does not recognize when the door is opened. It has failed in a mode that does not cause problems, except when you enter the door from the passenger side without opening the driver door. This can be fixed for another \$200 upon request. A VW six-CD player can be added for another \$125. (We have both these parts in stock.)

**2007 New Beetle Convertible, Blue, 49,000 miles** VIN: 3VWRF31Y77M414893

- 2.5 L Engine (BPS) - five cylinders
- 6-Speed Automatic Tiptronic Transmission
- Leatherette Seats (beige)
- AM/FM/CD player
- Cruise control
- Antilock brakes
- Two keys (one with remote and one without)
- Convertible top, beige
- Alloy wheels
- Heated seats
- Owner's manual in glove box
- Drivetrain warranty to Dec. 2012 or 60,000 miles

Car is fresh off a four-year lease and was registered in Alabama. All warranty items were corrected by VW dealer. This included a new battery, new driver's side door latch, and new tiptronic control. The carfax is clean, but there is evidence that the car has been involved in two minor front end damage situations. The car was damaged when we purchased it at auction and we replaced the front bumper cover and grills. We had the cover professionally painted. In addition, the driver's door apparently swung too far at some time in the past and the door catch is broken. This catch is to keep the door from swinging too hard and hitting the car next to you. The right visor make-up light is not working. Other than that, everything seems to be working on the car. The top does show some signs of wear, which VW states is normal (translated, it was not covered under the full warranty). There is no boot (cover) for the top when down. We can sell you a black one for an extra \$100, if requested. (The car probably came with a beige boot, but people rarely use them, since you have to store it in the small trunk and get out to attach it.) The convertible top is in good working order. The standard Vee Dub warranty of up to three months apply to this car.

### **SPECIAL NOTE:**

All VWs come with the **Vee Dub Advantage** which includes free readouts of DTCs if the check engine light should come on. We will give you advice regarding repair. Although the car may be under full warranty, some repairs are very simple and we may be able to save you a trip to the dealer for warranty service.

### **ADDITIONAL CARS TO BE ADDED WHEN READY**

All our Volkswagens that have less than 100,000 miles come with a 30 day/1000 mile warranty on all major systems. We also provide a 90 day/3000 mile warranty with certain limitations. Our warranty reimbursement is capped at \$1,000 on either provision. This warranty is provided at no additional cost. For details, ask for a written warranty policy, which is available at any time and will be provided with the sale contract. Any exceptions to the warranty will be noted on the contract. Cars with over 100,000 miles (unless noted) are sold "as is" with no warranty. We service and test all our cars, but they are mechanical and we cannot always predict a failure, but we do our best to offer a product that will be trouble free.

**Vee Dub Motors** is a used car dealer in the Paducah, KY area. We are near Interstate 24 between Nashville and St. Louis. Our informational web site is at <http://www.VWupdate.com>. We offer the same cars as many of the big city dealers, but with a big difference. We actually service each car before the sale. When we buy a car at auction, we take it to our shop and do a wheels off inspection. We then repair anything that needs correction. We also perform any needed maintenance service. Some of our competitors tell you up front that they do nothing to the cars and that you can expect to spend \$500 getting it truly ready. We have already done this and in most cases, do not charge any more than the competition. We take trades, but offer no in-house financing. Please call if you have any questions or wish to arrange for transportation assistance. We will assist you in any way that we can (airport or bus station pickup, for example).
