

1999 New Beetle GLS, Green, 208,000 miles

VIN: 3VWCA21C0XM444255

- 2.0 L Engine (AEG)
- 5-Speed Manual
- Cloth Seats (tan)
- AM/FM/tape player
- Alloy Wheels
- Fog Lights
- Cruise control
- Antilock brakes
- Master key (remote) - no spare keys
- Owner's manual

One owner car! This car came through the local auction. It was fairly sound and I was impressed with the number of miles, so I had to buy it. The parts replaced included a new headliner, air conditioner compressor, starter, and door lock mechanism. Routine service was performed which included a new cabin air filter and checking of plugs, air filter, etc. All operational items were corrected and there are no known mechanical defects in the car. Also the car has not been in an accident and the paint is in good shape. The cloth interior has some stains and dirt. All carpets mats are in car. This car has as much get up and go as any 2.0 L engine VW that I have ever driven. I have taken the car on several trips and have had absolutely no problems. The brake pads and rotors are almost new, the timing belt looks new, and the tires are almost new. There is a lot of life left in this car and it can be driven for the next 40,000 miles with only oil changes needed.

1997 Passat GLX VR6, Automatic, Black VIN: WVWEE83A0VB009660

143,000 miles, Automatic Transmission

- 2.8L VR6 Engine (AAA) - six cylinder
- Moonroof
- Alloy Wheels
- Gray Leather Interior
- AM/FM w/tape player and CD changer in trunk
- Anti Lock Brakes
- Fog Lights
- 2 keys

Car was purchased at local auction. This was the top-of-the-line VW in that year. Car was serviced and many items were corrected to restore the car to original condition. Front brakes and rotors were new at 133K miles. New filters, spark plugs, spark plug wires, etc. were installed in getting car ready for sale. New air conditioner compressor and related components were installed. Known problems that are not being repaired include the cruise control (not working), ABS light intermittent (not seen for a long time now), RR door will not open from outside, and LR window will not lower. These could be repaired at a later time, but cannot be a part of this sale. RR door shows minor paint damage. Car runs great and uses regular gas.

2000 New Beetle GLS, Blue/Purple, 129,000 miles VIN: 3VWCC21C8YM408938

- 2.0 L Engine (AEG)
- 5-Speed Manual
- Leather Seats (beige), heated
- AM/FM/tape player
- After-market CD player (12-disc JVC) changer in trunk
- Moonroof
- Alloy Wheels
- Fog Lights
- Cruise control
- Antilock brakes
- Master key (remote) - only one key
- After-market dark tinted windows

This car was running perfect when we bought it, but upon checking it over, we decided to perform some major preventive maintenance. The following new parts were installed: timing belt, water pump, thermostat with housing, hose flange, and temperature sensor. This should eliminate some common failure items for a car with more than 100,000 miles. The spark plugs were replaced with the proper OEM version made by NGK. Interior is very clean, but floor mats are missing. The tape player does not work. The heated mirrors do not work. The exterior has a few scrapes on the plastic fender and the hood shows evidence of a previous repair that is hard to see. The car is not perfect, but is mechanically sound. Two new tires were installed and the other two are like new.

2005 Jetta GL 2.0L, Automatic, Platinum Gray VIN: 3VWRA69MX5M020061
54,000 miles

- 2.0L Gas Engine (30 mpg highway)
- AM/FM radio w/in-dash CD
- Cruise Control
- Air bags (dash, side, and side curtain)
- Power locks
- Antilock brakes
- Gray cloth seats
- Tinted windows
- Owner's manual in glove box.
- One master key (folding with remote) & valet key
- Split folding rear seat

Notes on car: This car came off a three-year lease. It is clean inside and out. There are no known mechanical defects. The exterior does have some minor blemishes: a few small, thin scratches on right side and a scuffed rear bumper. These cannot be seen from a distance. Front and rear brakes are almost new. Front tires are new; rear tires are at 50% tread. All tires are matching Goodyear original equipment design. No routine service other than oil changes should be required until car reaches 80,000 miles. We are providing our standard 30 day/90 day warranty on this car. See our warranty sheet for specific details.

2000 Jetta GLS 2.0L, Automatic, Silver**VIN: 3VWSA29M7YM053775**

147,000 miles

- 2.0L Gas Engine
- AM/FM radio, 6 disc CD changer in trunk
- Cruise Control
- Air bags (dash, side, and side curtain)
- Power locks
- Antilock brakes
- Gray cloth seats
- Tinted windows
- Owner's manual in glove box.
- One master key (folding with remote) & valet key (needs programming)
- Split folding rear seat

Notes on car: We sold this car to a new driver, who put 16,000 miles on the car in a six-month period. Based on her safe driving experience, she talked her parents into a more expensive car and offered us the chance to buy the VW back. Since we had already serviced the car and knew the history, we gave her a good price, fixed a few items, and put it back out for sale. New front tires were installed and all operational checks were performed. The car is running great and is ready for a new owner.

2001 Cabrio GLS 2.0L, 5-Speed Mnl, Red**VIN: 3VWCC21V71M806911**

64,000 miles

- 2.0L Gas Engine
- AM/FM radio, 6 disc CD changer in trunk (Monsoon premium sound system)
- Cruise Control
- Air bags (dash)
- Heated seats
- Power locks
- Antilock brakes
- Tan cloth seats
- Tinted windows
- Owner's manual in glove box.
- One master key & remote
- Convertible, manually operated top.

Notes on car: This car went through the local auction. Low miles, color is red; I had to have it! I'm usually disappointed in a car after I buy it and find out what is wrong. Not this one! Everything was in great shape. The front and rear brakes appear to be new, both rotors and pads. There are no torn CV boots, the top is in good condition. It runs great. In fact, the car had already been serviced. I fixed a few minor items and have it ready to sell. If you don't mind a manual transmission, this is a great car at a great price.

2004 Jetta GLS 1.9L TDI, 5-Speed Manual, Gold VIN: 3VWSR69MX4M130262

131,500 miles

- 1.9L PD Diesel Engine (~45 mpg, highway)
- AM/FM radio w/in-dash CD, Monsoon Sound System (Premium)
- Cruise Control
- Alloy wheels
- Air bags (dash, side, and side curtain)
- Power locks
- Antilock brakes with Electronic Stability Program (ESP) system
- Black cloth seats, heated front seats
- Tinted windows
- Power moonroof
- Owner's manual in glove box.
- Two master keys (folding with remote)
- Split folding rear seat

Notes on car: This car is from the Nashville area and was purchased from VW Credit as a voluntary repossession. We performed complete maintenance service. A new timing belt, including new water pump and tensioner was installed at 119,000 miles. We have been using this car every three weeks for a 500 mile trip to Frankfort. The fuel economy has been confirmed to meet or exceed 45 mpg. Oil changes are being performed on schedule. There is only one item not working on the car: the side mirrors do not defog.

2002 Jetta GLS 1.8L Turbo, 5-Sp Automatic, Green VIN:3VWSE69MX2M109615

76,000 miles

- 1.8L Turbo Engine (~29 mpg, highway)
- AM/FM radio w/in-dash CD, Monsoon Sound System (Premium)
- Cruise Control
- Alloy wheels
- Air bags (dash, side, and side curtain)
- Power locks
- Antilock brakes with Electronic Stability Program (ESP) system
- Velour cloth seats
- Dark Tinted windows
- Power moonroof
- Owner's manual in glove box.
- Two master keys (folding with remote) and one valet key
- Split folding rear seat

Notes on car: One owner car in tiptop shape. Timing belt service including new water pump, thermostat, and tensioner was performed at 75,000 miles. This car was bought new by daughter of owner of Vee Dub Motors and was driven exclusively in San Antonio, Texas. Routine service was performed on schedule. New tires were recently installed. Front and rear brake pads and rotors were recently replaced. New front shocks have been installed. Car has been serviced (oil change) and is ready for use. Owner traded up to a newer Jetta. Two items not working: heater for right side mirror and rear window defogger. We are providing our standard 30 day/90 day warranty on this car. See our warranty sheet for specific details.

2006 Passat Luxury, 2.0 Turbo, Automatic, Arctic Blue Silver

VIN: WVWEK93C56P031402

61,000 miles, 6-speed Tiptronic Automatic Transmission

- 2.0L Turbo Engine, 31 mpg Highway
- Moonroof
- 17" Alloy Wheels
- Classic Gray Leather Interior
- AM/FM SAT, 6 disc CD changer, Dynaudio Premium Sound System (\$1,000 pkg)
- Electronic Stability Programming (ESP) - includes anti lock and anti slip regulation
- Power seats, semi
- Tilt steering
- Multifunction trip computer display
- Owner's Manual
- 2 keys

Car is off a four year lease. The 60,000 mile service was performed to get this car ready for sale. A new battery, new power steering motor, and EVAP valve was installed. There were no faults stored in the On Board Diagnostic (OBD) system. Car runs perfect. No service is required for another 10,000 miles. We are providing our standard 30 day/90 day warranty on this car. See our warranty sheet for specific details.

1999 New Beetle GL, White, 114,000 miles VIN: 3VWBC21C9XM427377

- 2.0 L Engine (AEG)
- Automatic Transmission
- Cloth Seats (black)
- AM/FM radio
- CD player changer in trunk
- Antilock brakes
- Steel Wheels w/aftermarket wheel covers
- Two working keys, separate working remote (one)
- After-market dark tinted windows
- Owner's manual

This car was purchased at near salvage value due to a minor collision with a dog. The damage was limited to the front grill, radiator, and air-conditioner coil. All three were replaced. Mechanically, the car also needed attention. Many new parts were installed: spark plugs, ignition wires, oxygen sensor, electric radiator fan, door lock mechanism, air filter, brake cables, water pump, timing belt, tensioner for timing belt, and thermostat. The automatic transmission was serviced with a new filter and fluid change. In short, this car received a good "work over". It runs great and should give many more miles of reliable service. There were a few items that were not repaired: the tape player is not working; the switch for the mirrors does not work even though it is new; and the keying of the car is complicated. The regular flip key will open the car door with a key or with the remote buttons. However, it takes a different key to start the car. Neither key will open the trunk. (The trunk can be opened with the remote or with a switch in the driver's door.)

2006 New Beetle TDI, Salsa Red, 35,000 miles VIN: 3VWRR31CX6M406068

- 1.9 L Engine Diesel TDI PD
- 6-Speed Automatic Transmission DSG (better fuel economy than a manual transmission)
- Alloy Wheels
- Traction Control includes ASR, EDL, ESP, and HBA
- Anti-lock braking system (ABS)
- In dash CD player plus trunk mounted 6-disc CD changer
- Monsoon sound system w/amplifier
- MP3 player connector
- 2 keys (one flip key with remote and one valet key)
- Owner's Manual
- Power sunroof
- Heated seats
- Cream leatherette seats
- Still covered by five-year drive train warranty.

This is a rare specimen of New Beetle. A diesel with only 35,000 miles, red, and in near mint condition. Wow! Service is due at 40,000 miles - oil change and filters (including transmission). This service will be included in the selling price, if desired. Car was purchased in Nashville from VW Credit. It was fresh off a lease. The original title was in the St. Louis area. The car was involved in several minor accidents over the period of use. A thorough inspection revealed that all the plastic fenders on the car have been replaced. There is no structural damage and no indication of repairs or paintwork other than the new fenders. All paint work on this car was professionally done and there are very few defects showing anywhere on the car.

SPECIAL NOTE:

All VWs come with the **Vee Dub Advantage** which includes free readouts of DTCs if the check engine light should come on. We will give you advice regarding repair. Although the car may be under full warranty, some repairs are very simple and we may be able to save you a trip to the dealer for warranty service.

ADDITIONAL CARS TO BE ADDED WHEN READY

Vee Dub Motors is a used car dealer in the Paducah, KY area. We are near Interstate 24 between Nashville and St. Louis. Our informational web site is at <http://www.VWupdate.com>. We offer the same cars as many of the big city dealers, but with a big difference. We actually service each car before the sale. When we buy a car at auction, we take it to our shop and do a wheels off inspection. We then repair anything that needs correction. We also perform any needed maintenance service. Some of our competitors tell you up front that they do nothing to the cars and that you can expect to spend \$500 getting it truly ready. We have already done this and in most cases, do not charge any more than the competition. We take trades, but offer no in-house financing. Please call if you have any questions or wish to arrange for transportation assistance. We will assist you in any way that we can (airport or bus station pickup, for example).

All our Volkswagens that have less than 100,000 miles come with a 30 day/1000 mile warranty on all major systems. We also provide a 90 day/3000 mile warranty with certain limitations. Our warranty reimbursement is capped at \$1,000 on either provision. This warranty is provided at no additional cost. For details, ask for a written warranty policy, which is available at any time and will be provided with the sale contract. Any exceptions to the warranty will be noted on the contract. Cars with over 100,000 miles (unless noted) are sold "as is" with no warranty. We service and test all our cars, but they are mechanical and we cannot always predict a failure, but we do our best to offer a product that will be trouble free.
