Please call or e-mail for info or clarification on any item shown on this list. Every attempt has been made to obtain parts from the original equipment manufacturer, known in the industry as OE or OEM. Exceptions to this are muffler assemblies which are German aftermarket, made by Ernst. Complete catalytic converter assemblies are aftermarket and made in California. The OEM Emico converter listed consists of the converter canister only and must be welded into your existing head pipe. At Europarts, you will find no cheap, poorly made knock-off parts. We sell genuine VW, OE/OEM and quality European aftermarket parts at rock bottom prices. Although we are located in San Diego, most products can often be shipped from several other US locations, minimizing shipping time and freights costs. We welcome your comments and suggestions. Thank you for your patronage.
