

VEE DUB MOTORS

**11365 US Highway 60 W
Kevil KY 42053**

June, 2010

This is a quick note to explain our business. Our current operating hours are by appointment. Call the cell phone number (994-6261) and we can normally be on site within 10-20 minutes of your phone call. If you need to reach me at home, the number is 441-7205. Please feel free to call in the evening before 9:00 p.m. Both phones have voice mail.

We do **not** offer service work as of 8/1/09. (The owner accepted a teaching position at WKCTC.) However, we can provide advice and recommend where to take your car for service. Many repairs may still be under warranty and we can save you money by referring you to the VW dealer for a warranty repair.

We offer late model Volkswagens, but on a limited scale. If you have a particular model and year that you are looking for, we can find it for you at auction, perform needed repairs, and present you with a car that includes a limited 90-day warranty. Ask for more details on this program if interested.

Our selling method is no haggle pricing. All cars are priced at what we must get for them. There is no negotiation on these prices. If you don't like our price, there are plenty of dealers that will haggle. (Just make sure they know how to spell Volkswagen!) For cars with under 100,000 miles, we also provide a limited warranty that is fully disclosed on a separate sheet -- ask for details. There is no added cost for the warranty. We take trades of any brand car, but no financing -- see your credit union or bank.

--Winborn (Windy) Gregory, owner

The current inventory includes the following cars:
